New on Dialog
Enhanced Derwent World Patents Index Now Available

[handwritten:] (such originally performed in May 2006)

The enhanced *Derwent World Patents Index®* (*DWPI*SM) (Files 350,351,352) is now available on Dialog. The improvements implemented in *DWPI* on Dialog further extend the database's rich content set and enhances overall functionality of the database. *[handwritten: but is not in IFW.]*

In addition to distilled expert analysis reflected in *DWPI* expanded titles and abstracts, other enhancements include original patent filing details, multiple patent images, easy cut-and-paste patent family data, and much more.

The new templates include new features that will help you manage and distribute your *DWPI* search results in an attractive format.

Learn about all of the new DWPI enhancements and report templates at **http://www.dialog.com/dwpi**.
